Keep Sedona Beautiful (KSB), as you may know, is a non-profit which has been actively involved in the Greater Sedona community since 1972. Its mission is "to protect and sustain the unique scenic beauty and natural environment of the Greater Sedona Area." In furtherance of that mission KSB is a strong advocate for the protection and development of renewable energy sources for the community. One of the key such sources of alternative energy would be solar production of electricity.

KSB understands that APS has initiated a rate proposal that, in part, will adversely impact the ability of homeowners to utilize fully the benefits of roof-top solar panels.

KSB asks the City of Sedona and the AZ Corporation Commission to make every effort to ensure that roof-top solar energy production is protected and encouraged to every extent possible.

Sincerely,

Joanne Kendrick, President  
*Keep Sedona Beautiful, Environmental Stewards Since 1972*
